# 2.4GHz Wireless Scoreboard Adapter

Convert to wireless communication.

The 2.4GHz wireless scoreboard adapter (WA-3) allows you to wirelessly transmit data to Colorado Time Systems' LED scoreboards from a variety of input devices. Whether you are running swimming, diving, synchronized swimming, or water polo, this adapter can work for you.

2.4GHz integrated wireless
With 12 independent channels and 8 independent networks per channel, you can count on reliable communication to your LED display.

From your Timing Console: Connect one WA-3 to the timing console, and another to your LED display*.

From your laptop running SynchroMM or other CTS software: Connect your WA-3 to your laptop, and another to your LED display*.

From your multisport tabletop (WTTC-1) or handheld (WHC-1) controller: No WA-3 required.

*If you are using a 2.4GHz wireless scoreboard, you will only need one adapter connected your input source.
