

Infinity Start System

An excellent entry-level start system, and a great choice for smaller pools and recreation centers.

Features:

- Economical and easy to use
- Strobe and speaker are built into the lightweight unit for easy portability
- Provides swimmers with a fair and audible horn start
- Highly visible strobe light automatically flashes as the horn sounds, providing fair starts to athletes that are deaf or hard of hearing.
- Microphone has a false start recall feature that enables the starter to signal a false start and immediately alert the competitors

Product Specifications

The Infinity Start System consists of a start module with handle for easy portability, 40-watt corrosion resistant speaker, wired microphone with two start buttons (L/R), internal gel-cell battery, and 115V charging capability (240V available).

A secondary 40-watt speaker can be added to the Infinity Start System.

Mounting: Tripod attachment is standard. Tripod is sold separately.

Speaker: Internal moisture- and corrosion-resistant 40-watt reflex speaker is used. An additional 40-watt speaker is available for far lanes.

Strobe light: Bright, eye-catching strobe light automatically flashes simultaneously as horn sounds. This gives watch timers and officials a reliable starting reference, and provides a fair start to athletes that are deaf or hard of hearing.

Battery power: Safe, reliable internal gel-cell battery with built-in charging indicators and charger. For safety purposes, the unit will not operate while charging. Optional secondary gel-cell battery and recharger are available.

Warranty: Two-year limited warranty included, longer terms are available.

Dimensions (H x W x D): 8.9" x 15" x 6.9" (22.6cm x 38.1cm x 17.5cm)

Weight: 12 lbs (5.4kg)
